Engineers
Private Limited

the company

We are a professionally managed engineering consultancy established with a view of providing comprehensive engineering and scientific solutions to hardcore Industrial project

"Engineering is the power to create convenience"

Our forte is our knowledge-based engineering, cost-effective solutions and practical approach to specific requirements

management

Management is the administration & discipline of any organization. It strategizes, coordinates & accomplishes the set goals through available resources.

The key management is having rich cumulative experience of 80+ years in end-to-end engineering of green field, brown field and Retrofit projects.

Organization is managed by a team of professionals who are well experienced in their arena.

Our philosophy is performance driven.

Founder & CEO

D. S. Pruthvi
Electrical Engineer

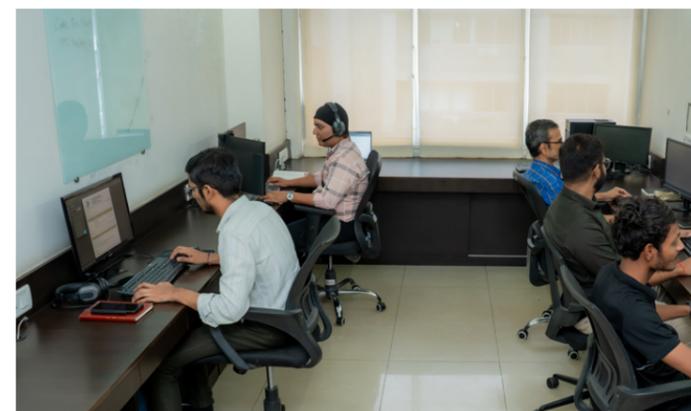

Pramod K. Singh
Mechanical Engineer

our team

We do everything with our values of honesty, hard work and trust.

We believe these characteristics should influence everything we do in business and in life, we sincerely enjoy the work we do and our clients get to reap the benefits.

core strength & objectives

"Creative, Effective, Innovative, Communicative... the 4 qualities of a successful organization"

Like any other company, the organization also boasts of its valuable asset i.e. it's dedicated staff. The entire crew is on its toes for the provision of comprehensive solutions covering an array of fields. In return, the company leaves no stone unturned in offering them a safe, environmentally-friendly workplace with a dynamic and positive atmosphere for enormous growth opportunities.

At this organization, we collectively make efforts to fulfill our goal of providing novel & cost-effective solutions to make life better for the common man. We focus on utilizing our expertise in delivering appropriate engineering & scientific outputs through safe & productive use of technology.

services

Engineering services

Electrical, HT, LT, ELV, Mechanical, Utility, Automation, BMS, HVAC, Drainage, Fire Protection, Water & Waste Water, Chemical and Gases

- Collection of site data
- Basic engineering
- Preparation of BOM / BOQ / MTO
- Project estimation
- Preparation of schemes and layouts for utility system
- Preparation of enquiry specification
- Detailed engineering
- Floating of enquiries
- Evaluation of offers
- Selection of equipments
- Inspection of equipments
- Supervision for installation, erection & commissioning of equipments
- Performance guaranty test (P.G. test of critical equipments)

Power system analysis

- Power system study
- Load flow analysis
- Fault analysis
- Stability analysis
- Relay co-ordination
- Harmonic analysis
- Transient studies
- Islanding of power plant from grid
- Dynamic load balancing of power plant
- Un-manned control of power plant
- HT and LT power evacuation and it's integration

MEPF Design Engineering Services

Piping:

- Utility Piping Services Like Steam, Thermic Fluid, Hot Water, Chilled Water/ Brine, Cooling water, Compressed Air, Vacuum System, Raw Water, RO Water, DM/EDI water, Effluent Water, etc.
- Process Piping Services like MEG, DEG, TEG, Hexane, Mineral Oil, Miscella, etc.
- Chemical Piping Services like HCL, HNO₃, H₂SO₄, POCL₃, H₂O₂, KOH, HF, Styrene, Butyl etc.
- Gas Piping Services like O₂, N₂, CO₂, Argon, Hydrogen, LPG, Natural Gases, Ammonia, TMA, Sih4 etc.
- Fuel Piping Services Like HSD, FO, LDO, etc.
- Stress Analysis of Hot Piping Application like Steam, Thermic Fluid etc.
- Pipe Flow Expert Software for Piping System Analysis & Report generation.
- Equipment Selection & Sizing for coordination of Room / Civil.

Electrical:

- Switch Yard Of 220 / 132 / 66 / 33 KV.
- Internal & External Illumination.
- Earthing Design
- Lightning Protection System with Risk Assessment
- HT/LT Power Distribution and Equipment Sizing.
- Cable Management.

Drainage:

- Storm Water Piping Design
- Plumbing Design for Bathrooms and Toilets
- Sewage Piping Design
- Water Audit

Water & Waste Water Treatment Plants Design

Fire Protection:

- Fire Protection system as per IS, NBC & NFPA codes.
- Fire Hydrant, Sprinkler, Alarm and Extinguisher & Signage System Design including Evacuation & emergency plan.
- Fire Pump Room Design with Water Storage Planning.
- Panel & Room Gas Suppression / Flooding System.
- Equipment Selection.

HVAC:- Process Cooling, Cleanroom & Comfort AC

- Heat Load & Ventilation Calculation
- Preparation of Layout, P&ID's, Schemes etc.
- Equipment Selection

global presence

“When there is teamwork & collaboration, wonderful things can be achieved”

This organization stands tall among the global market leaders as a one-stop solution for all the engineering & scientific needs. Our global reach is the result of selfless contribution of our dedicated and determined team as well as our innovative and exceptional services. Our approach of client involvement in the entire project has earned us client trust and a global recognition on the whole.

RENEWABLE ENERGY

TATA MOTORS

As citizens of the country it is our utmost duty and responsibility to participate in energy conservation.

This organization supports and promotes the green building certification which means the buildings would use less water, optimise energy efficiency, conserve natural resources, generate less waste and provide healthier spaces for occupants, as compared to a conventional building. The above mentioned certifications make this organization a part of the green building movement.
